

THANK YOU FOR ORDERING ERICA SYNTHS MIDI TO CLOCK MODULE! If you are true analogue enthusiast, you most probably have couple of analogue sequencers that need to be synced to your drum machines and other midi controllers, therefore Erica synths has developed a simple and cost-effective MIDI TO CLOCK module with few interesting features. Besides direct clock output that follows BPM of the midi sequencer or drum machine, it has second clock output with selectable clock division by 2, 4 and 8.

SAFETY INSTRUCTIONS

Please follow the instructions for use of the Erica Synths midi to clock module below, 'cause only this will guarantee proper operation of the module and ensure warranty from Erica Synths.

Water is lethal for most of the electric devices, unless they are made waterproof. Erica Synths module is NOT intended for use in a humid or wet environment. No liquids or other conducting substances must get into the module. Should this happen, the module should be disconnected from mains power immediately, dried, examined and cleaned by a qualified technician.

Do not expose the module to temperatures above +50° C or below -20° C.

Transport the instrument with modules installed carefully, never let it drop or fall over. Warranty does not apply to modules with visual damages.

The module has to be shipped in the original packaging only. Any module shipped to us for return, exchange and/or warranty repair has to be in its original packaging. All other deliveries will be rejected and returned to you. Make sure you keep the original packaging and technical documentation.

You will find Erica Synths terms of warranty at www.ericasynths.lv.

Items for return, exchange and/or warranty repair have to be sent to: Erica Synths Andrejostas Str. 4a , room T8-C, Riga, Latvia, LV-1045

DISPOSAL

This device complies to the EU guidelines and is manufactured RoHS conforming without use of led, mercury, cadmium and chrome. Nevertheless, this device is special waste and disposal in household waste is not recommended.
